

Techart 2012 Porsche 911 Tuning Program

13/12/2011 15:47 by admin

TechArt is introducing the first tuning kit for the new Porsche 911, targeting both the Carrera and the Carrera S versions of the 911 generation. This is only a preview for the aftermarket developer's Aerodynamic Kit I, which is scheduled to make its debut at the 2012 Geneva Motor Show.

It all starts with a set of custom wheels: you can choose between the five-spoke Formula model that comes in a 20- or a 21-inch size and the Formula III, which is offered in the same sizes. Choosing one of t.... [...]
