The Porsche Cayenne has recently received a new complex modification package, with the development coming all the way from Russia, where aftermarket company TopCar launched the Cayenne Vantage 2 Carbon Edition.

The SUV has been fitted with a carbon fiber widebody kit, comprised of front and rear fascias, fenders, side skirts, a redesigned bonnet, as well as a rear hatch spoiler - everything is covered in a Carbon Gray coat.

The interior has been gifted with multiple goodies, such as new le... [...]
