

PPI Razor GT24 Carbon Fiber Hoods for the Audi R8

13/12/2011 17:50 by admin

Audi tuner PPI Design is introducing two new goodies for its Razor GTR-10 Audi R8 V10 project, giving us new carbon fiber developments to talk about.

We'll start with the PPI Razor GT24 front and rear hoods, which not only look sharp, but also save weight. The engine cover also uses a polycarbonate glass (it's made of a material called Makrolon) section that allows the engine to be seen. The engine hood also comes with air intakes, offering enhanced cooling and is around 50 percent lighter th... [...]
