Nowadays, there are certain tuners that like to sell what we call drugs on wheels: twin-turbo aftermarket developments that take supercars to a sky-high performance level. We've been seeing more and more goodies of this kind and we're here to talk about one.

The adjacent clip (a new version of a previously-released one) brings us HighTechCorvette's 1,520 hp twin-turbo C6 Corvette, with the extreme tuned creation receiving a hammer treatment from 50 mph (80 km/h) to over 170 mph (274 km/h).
