

Rolls-Royce Phantom by Junction Produce Is Pure Overkill

03/01/2012 17:48 by admin

Tuning a Rolls-Royce is an extremely difficult job, as this kind of vehicle comes with a delicate balance in its quest for perfection and any extra feature can ruin it. However, Japanese aftermarket developer Junction Produce doesn't seem to be aware of this. The proof? The company has released a tuning package for the Rolls-Royce Phantom, with the development crossing the controversy line.

The vehicle has been brought closer to the road and fitted with a set of 24-inch Scara OZ rims, with th... [...]
