

AC Schnitzer MINI Coupe

03/01/2012 19:49 by admin

The MINI Coupe has just received a modification package from AC Schnitzer, with the tuner only releasing a few goodies to get us warmed up.

The German aftermarket developer is still working on a set of mods that will increase the engine power, and for now you can order tech goodies such as a limited slip differential (75 percent) for the Cooper S, as well as a rear silencer for both the Cooper S and the John Cooper Works models.

The vehicle can be brought closer to the road using an adjust... [...]
