

2013 Mercedes-Benz SL Lorinser Tuning Preview

11/01/2012 13:32 by admin

The first photos of the new Mercedes SL are still fresh in our memory, but this doesn't mean that tuners can't start developing projects for the roadster. The first aftermarket developer to target the 2013 SL is Lorinser, which is now offering us a rendering of the project.

The German tuner promises a complex body kit for the 2013 SL, with the tuning goodies set to redefine the car's identity. However, the company is only showing us the front and the side of the car, but we can expect the rea... [...]
