

Infiniti EX37 Gets Vilner Interior

16/01/2012 18:39 by admin

Bulgarian tuner Vilner, which specializes in offering custom interiors, has recently released a new project, with the development being based on the Infiniti EX37. The company used aniline leather for the seats, doors, sun shades, as well as for certain areas of the dashboard. The seats have also received a new design, which comes with new shapes and uses the Vilner logo and large, bright seaming.

Vilner used special materials (nubuck-mareta with details of VideoFlex Film Extra strips) for ... [...]
