

This is What 1,250-horses can do to Silicone Prostheses

16/01/2012 21:40 by admin

We can hardly see this video making it on Discovery channel, but our science-minded readers will surely appreciate the following clip that shows what a twin-turbocharged Lamborghini Gallardo tuned by Underground Racing with some 1,250 wheel-horsepower can do to a pair of silicone implants when it's accelerating full force. You can take notes of the effects while watching the video that follows after the break.[...]
