

Ferrari FF Gets 887 HP Bio-Ethanol E85 Conversion

18/01/2012 11:27 by admin

The Ferrari FF is an incredibly impressive machine, as it mixes a multitude of assets with the Prancing Horse' spirit. However, there will always be some who want more, and if that includes seriously upping the ante on the hp front and making the vehicle much greener at the same time, we want to know about it.

Norwegian aftermarket developer Customised.no has developed a bio-ethanol E85 conversion for the Ferrari FF, which takes the car's V12 unit from the stock 660 hp to 887 hp, while seriou... [...]
