

Roush Ford F-150 Engine Tuning

20/01/2012 16:51 by admin

Roush has recently decided to dive deeper into the Ford range, moving past its usual Mustang offerings, with the tuner now targeting the F-150 pickup in an effort to give "power to the people".

The aftermarket developer offers a range of upgrades that can seriously increase the output of various F-150 engines, turning your pick-up into one mean machine. We'll start with the creme de la creme developments for now. We are talking about ROUSHcharger supercharger systems for the 6.2-lit...[...]
