

Vorsteiner BMW X6 M Looks Awesome on Video

20/01/2012 19:52 by admin

The BMW X6 M is definitely one of our top guilty pleasures. As ugly as a warthog and as imposing as an elephant, it demands attention every time you go near the acceleration pedal.

By now, you should be very familiar with the work of Vorsteiner and their concave wheel madness, but how about something fresh and interesting.

The Vorsteiner X6 M sports an exterior kit are made from resin pre-impregnated, vacuum-formed carbon fiber autoclave system. In other words, the parts offer a 30 percent...[...]
