

Porsche Panamera Black Bison by Wald International

20/01/2012 23:53 by admin

We've seen a lot of tuning programs over the past couple of years, but one thing that has remained a constant is how impressed we are with Wald International's Black Bison tuning program. After similar programs were given to the BMW 5-Series, the Mercedes S63 AMG, and the Jaguar XJ, Wald International is setting its sights on another German luxury sports car: the Porsche Panamera S. Wald International's Black Bison program for the Panamera S comes with a comprehensive list of aerodynamic components, including a new carbon fiber aero kit with a new front fascia and sculpted air intakes, front fender air vents, a rear diffuser, a boot lid spoiler, and rocker panels. Matching the cool style of the Black Bison aero kit, Wald International also lowered the car's suspension and fitted the Panamera S with a new set of two-tone, five-spoke lightweight alloy rims with the firm's signature custom tail pipes.[...]
