

Vorsteiner VS-130 Wheels for Ferrari 458

25/01/2012 20:29 by admin

US tuning company Vorsteiner is preparing to release its 2012 wheel collection, with the aftermarket developer introducing a set of rims for the Ferrari 458 Italia as a starting point. We are talking about the VS-130 wheels, which feature a lightweight construction, a simple five-spoke design and bring a concave profile.

The wheels you see here come in a 21x9J size at the front and in a 21x11J size at the rear. Customers can choose whatever tires they like, but Vorsteiner suggests that you sh... [...]
