

Project Kahn's Widebody Porsche Panamera Tune

27/01/2012 00:40 by admin

For its next tune, British styling house Project Kahn has selected the Porsche Panamera, which receives a thorough makeover inside and out. The first thing you'll notice about Project Kahn's Panamera is the wide bodykit that includes the front bumper pieces encompassing vertical LED strips, the beefed up front and rear fenders with matching side skirts and the rear bumper parts with an integrated rear air dam.[...]
