

4.2 TDI V8 Engine Gets MTM Tuning

01/02/2012 12:43 by admin

V8 diesels are a rare sight on the market, so when we heard that German tuner specialist MTM has developed an aftermarket package for the 4.2-liter V8 TDI of the VW Group, we wanted to share the news with you.

The unit, which can be found on the VW Touareg, Audi Q7 and Audi A8, produces 350 hp and 800 Nm (591 lb-ft) when it leaves the factory. MTM starts with an ECU remap, which takes the engine to 410 hp and 930 Nm (686 lb-ft), figures that will fill the cabin with adrenaline when the driver... [...]
