

Aston Martin Cygnet: Project Kahn Tries to Make Something Out of Nothing

09/02/2012 22:12 by admin

There are plenty of reasons not to buy into Aston Martin's cover up of the Toyota iQ, but if you have already paid twice or perhaps even three times as much for a cooler grille and a luxed up interior and still aren't happy about the way the Cygnet looks and sounds, Project Kahn has some select upgrades for you. On the outside, the British tuner fits the Cygnet with its own alloy wheels that are available in various colors (size 17-in. up front and 18-in. at the back), a new set of brake calipers finished in heat resistant paint, again in whatever color the customer wants, and bespoke exhaust tail pipes.[...]
