

Vorsteiner Tunes a Rolls Royce Ghost

14/02/2012 12:27 by admin

Vorsteiner has shown an endless and all-consuming love for the concave wheel, and some Hollywood big shot or rapper must have found love for them, because the tuners have gotten their hands on a Rolls Royce Ghosts, the epitome of luxury.

Let's start with what they do best, a set of massive 24-inch 3-Piece Forged Aluminum Wheels with factory floating center cap have been added. These almost hug the arches and will likely ruin the ride since the tires look like thin smudges of paint... but who cares... [...]
