

## Range Rover Evoque Tuned by Arden

14/02/2012 12:27 by admin

The Range Rover Evoque has received a new tuning package from German aftermarket specialist Arden, with this targeting the exterior, interior, as well as the tech side of the crossover.

The front bumper now comes with a handmade stainless steel grille, as well as a set of sidebars that come with LED lighting (the light can be turned on/off via a remote control). The vehicle was fitted with a lowering suspension, which brings it 30 mm closer to the road, as well as an ECU remap that allows th... [...]
