

Peugeot Partner Urban Activity Vehicle Coming from Irmsher

15/02/2012 20:39 by admin

Irmsher is ready for the Geneva Motor Show, with the German aftermarket developer today announcing that it will bring the Peugeot Partner Urban Activity project to the Swiss event. This is based on the Partner Tepee, being introduced in Irmsher's RC Line for Peugeot vehicles and comes with one main special element: an foldable tent placed on the roof.

The tent relies on four corner elements to keep its shape, can be deployes in a matter of seconds (this is what the tuner promisses) and comes ...
