

Project Kahn's Wide Body Audi Q7 3.0 TDI

16/02/2012 22:52 by admin

Next up on Project Kahn's list is the Audi Q7 with a 233bhp 3.0-liter V6 diesel engine. The British tuner visually transforms the premium SUV with a new exterior styling and an extensive makeover of the interior.

On the outside, Kahn exterior's package includes a ground effects kit with a front apron featuring gunmetal grey detailing, wheel arch extensions, front fender vents side skirts, a roof spoiler, and a rear apron that also houses the diffuser and the new exhaust tailpipes.[...]
