

## 2012 Mercedes SLK: CB25 S Power Kit from Carlsson

02/03/2012 11:25 by admin

German tuners Carlsson have tuned the new Mercedes SLK before, but they decided to have one more crack at it with this project, and it will be on display in Geneva.

Their old power kit were unveiled last year. The upgrades enable the SLK 200 CGI to produce either 211 or 224 hp, as compared to the 184 hp produced by the standard version. Also, the SLK 250 CGI is able to develop 231 hp instead of 204 hp.

Now though, a new power kit has been released in the form of the CB25 S, which is anothe... [...]
