

## BMW 328i Becomes AC Schnitzer ASC3 Turbo with 291 HP

02/03/2012 19:27 by admin

Now that BMW has gone all-turbo with the new 3-Series, it's become easier for tuners to release engine modification package and we are here to talk about the latest development of this kind, which comes from AC Schnitzer.

The German tuner will use the upcoming Geneva Motor Show to release its version of the F30 3er. This uses the 328i as a starting point, with the 2.0-liter turbocharged four-pot being boosted from 240 hp and 350 Nm (258.1 lb-ft) to 291 hp and 410 Nm (302 lb-ft). This was pos... [...]
