Together with its existing styling upgrades for both the exterior and the interior of the Smart Fortwo, German tuning house Carlsson presented a performance kit for the Daimler group's smallest model at this week's Geneva Motor Show. Carlsson's CK10 package for the Fortwo includes a revised engine management system and a sport air filter that help lift the 1.0-liter petrol unit's peak output to 110hp (82kW) and torque to 158Nm (116.5 lb-ft).[...]
