

Porsche 911 SP 370 by Sportec

08/03/2012 01:04 by admin

Swiss tuning company, Sportec, is bringing their latest program for the all-new Porsche 911, specifically the Carrera and Carrera S models, to the 2012 Geneva Motor Show. While devoid of any aerodynamic enhancements, the tuning company went balls to the wall with a performance upgrade and a new sports suspension system. For the former, Sportec upgraded the engine's electronics while also putting in new sports catalysts, bumping up the 911's 3.8-liter flat six engine from the standard 400 horsepower to 420 horsepower. This results in an increased 0-60 mph time of 4.7 seconds and a top speed of 155 mph. The new sports suspension system Sportec has added lowers the sports car's ride height by 25 mm, highlighting the new set of 20" aluminum Mono/7 wheels.[...]
