Italian aftermarket developer Auto Avio Costruzioni has turned its attention to the Alfa Romeo Giulietta, releasing a one-off model, which is the company's third project that uses an Alfa as a starting point.

The vehicle's 1.75-liter turbocharged four-cylinder petrol engine, which delivers 235 hp and a peak torque of 340 Nm when it leaves the factory has been boosted to 270 hp and 385 Nm.

In order to be able to handle the extra power, the five-door hatch has also had its connection to the ... [...]
