

Lamborghini Gallardo Gets Carbon Fiber Interior from MAcarbon

13/03/2012 18:18 by admin

The Lamborghini Gallardo is one of the most popular supercars on the market and also a favorite vehicle for tuners and we are here to introduce the latest aftermarket development for the V10 beast.

US tuner MAcarbon is offering an entire range of carbon fiber goodies for the supercar's interior, with the package including a total of 15 pieces, such as door handles, carbon instrument cluster, center console hump, handbrake, handbrake surround, AC Surround, aux gauges, ashtray.

In the pictur... [...]
