

Hamann Range Rover Evoque Video Released

13/03/2012 20:18 by admin

The Range Rover Evoque is already a bold vehicle and German tuner Hamman recently decided to take things even further by releasing a complex modification program for the crossover.

We'll start with the tech side of the story: both the turbocharged petrol and diesel engines received an upgrade pack, with the first gaining 31 hp and 65 Nm and the latter now offering an extra 38 hp.

The vehicle has been dressed in a multi-piece wide body kit, which comes finished in silver (this was used for ... [...])
