The Mercedes SLS AMG is one of the most attention-savvy cars out there, but that wasn't enough for some people who had the means to change it. We wouldn't exactly call the Hamann version of the supercar a subtle job, but adding a flying pegasus to the front end has made this one radical car.

The tuner offers a net set of forged alloy rims for the vehicle. Dubbed Design Edition Race Anodized, the wheels use a cross-spokes design and feature a black matte finish. The rims also come with titaniu... [...]
