

Meet The Most Amazing Lotus Exige In The World

20/03/2012 21:17 by admin

_____ It's got a two-stage fueling system comprising rocket fuel and Spaceballs-grade liquid Schwartz. It's been widened by nine inches and lightened to achieve the power-to-weight ratio of a '70s-era Formula One car. It's also got a Group B-inspired twin-charging system that produces quadruple-digit horsepower. It just might be the world's fastest Lotus Exige. [...]
