

## **BMW M5 Project Exkalaber by SR Auto Group**

21/03/2012 11:21 by admin

Straight from the minds of the people that brought us the "Zeus," the "Deathbolt," and the "Eagle Eye" comes another piece of tuning genius in the "Exkalaber." With the continuing trend of working on some of the finest sports cars in the land, SR Auto Group took the M5 E60 and gave it a mash-up of customized programs from different tuners and made it into their own. The most distinctive addition to the German sports car is the Hamann-sourced aerodynamic body kit that comes with a bevy of new components, including the new front lip, new side skirts, and the new rear lip. In addition, SR Auto Group also added four matte black exhaust tips that, when combined with a Dinan exhaust system, gives the M5 E60 a significant performance boost. Rounding out the modifications are a new set of wheels - the 21" PUR 4OUR DEPTH wheel - that the aftermarket company has fitted into some of the most exotic super cars in the world.[...]
