

Wheelsandmore R231 Mercedes SL 500

26/03/2012 16:11 by admin

We love it when tuners know better than to fit a stupid body kit that ruins the look of a car we liked. But there's nothing wrong with subtly enhancing a brand new model with big rims, because people who buy expensive cars tend to have a desire to stand out.

The R231 generation of Mercedes Benz SL was only recently launched. In fact, it's so new that we don't have a Brabus version yet, but we do have a Wheelsandmore model. The German tuning specialist has really slapped on a cool set of wheels... [...]
