Many people have been complaining that the Toyota GT 86 hasn't got enough bang for the buck. Of course the Big T might take care of this situation by offering a tweaked version in the future, but what are the fans to do in the meantime.

Well, there's always the Purista version that you can buy in Japan. This comes as a bear-bones car that you can customize, and Japanese drifter Max Orido has done just that. For the D1 Grand Prix, he will be using a heavily modified car, which does away with t... [...]
