

ABT Volkswagen Transporter 2012

09/04/2012 19:18 by admin

German tuner ABT has recently released a modification package for the VW Transporter T5 facelift, with the package targeting the tech side and exterior of the vehicle. It all starts under the hood, where all the engines have received power upgrades.

The entry level diesel unit was bumped from 84 to 110 hp, the 101 hp version now delivers 130 hp, while the 140 hp 2.0-liter TDI now offers 170 hp instead of 140 hp. As for the 2.0-liter TSI turbocharged petrol four-cylinder unit, this has been c... [...]
