From the company that gave us the Lamborghini Aventador Molto Veloce comes another awesome tuning program, only this time, it's for the Porsche Cayenne Turbo SUV. With their impressive line-up of tuning programs, it's no surprise that DMC Tuning has established a reputation as one of the best tuners in the world, and their newest program for the Cayenne called the Terra 650 only builds a stronger case to their already stellar reputation. Based on the Porsche Cayenne Turbo, the Terra 650 will make its debut at the 2012 Top Marques Monaco, where it's prepared to wow the crowd with its new aerodynamic body kit to go with a massive engine upgrade that shoots up the SUV's output from 500 horsepower to 650 horsepower.[...]
