

## BMW M3 E46 by G-Power

02/05/2012 14:33 by admin

The BMW M3 E46 is a car that's already past its production date, but for a tuning company like G-Power, "out-dated" isn't a word that can stop them from building one of their customary - and impressive - tuning programs. In order to give this M3 E46 something to brag to about, G-Power decided that the only way to do so was to make it more powerful than the current M3, the E92. Powered by a 3.2-liter straight cylinder engine that produces 343 horsepower and 269 lb/ft of torque, G-Power fitted a new SK I "SPORTY DRIVE" supercharger system to the car's engine, resulting in an increased output of 450 horsepower and 339 lb/ft of torque. In addition to the supercharger system, G-Power also fitted the M3 E46 with a new set of 20" Silverstone Diamond wheels wrapped in Michelin Pilot Sport Tires while also adding a new coilover suspension, a stainless steel muffler, and high performance brakes.[...]
