

Lamborghini Aventador Supremacy by SR Auto Group

05/05/2012 01:59 by admin

When it comes about the Lamborghini Aventador there isn't much you can change. But as usual, its the little changes that make a great car looking even greater. And this is where tuners like SR Auto Group came into focus and they do their magic. The tuner's latest tuning kit is called "Project Supremacy" and we tend to believe they couldn't find a better name for it. Just watch the images and you will agree with us. But do not imagine that SR Auto did some extraordinary changes. No! As usual they have only added a new set of wheels from PUR Wheels. In a 20/21" setup, featuring a modern matte-black face and the beautifully captivating, Rose Gold Lip, these new wheels seems to be just the right addition. And when you add a Lamborghini Murcielago in the background then you definitely obtain an amazing combination. We'll just hope you'll enjoy it!...
