

Nissan GT-R Gets 360 Forged Concave Spec 12 Wheels [Photo Gallery]

07/05/2012 18:50 by admin

Tuners will always have a soft spot for the Nissan GT-R, regardless of which type of aftermarket goodies they want to gift Godzilla with and we are here to talk about the latest one, a set of rims from 360 degrees Forged. The Miami-based wheel specialist has gifted the Japanese supercar with its latest creation, the Concave Spec 12, which comes with a sleek, six double-spoke design. The front axle gets 21x9.5-in...
