

## BMW 1-Series Tuned by Hartge [Photo Gallery]

08/05/2012 17:02 by admin

BMW specialist tuner Hartge has started the customization and tuning program for the BMW 1-Series with the 116i version of the new, F20 generation model. We're talking about the underpowered base model of the range, which comes with a 1.6-liter four-cylinder petrol with TwinPower Turbo and direct injection technology, but only 136 horsepower and 220Nm (162 lb-ft) of torque. However, Hartge's ... [...]
