

Nissan GT-R with Straight Pipes Screams in Dubai [Video]

11/05/2012 18:10 by admin

The Nissan GT-R has become a cult car primarily thanks to its handling, but this doesn't mean that the ability to negotiate corners at amazing speeds is the only asset of the Japanese supercar. The twin-turbo V6 engine that powers Godzilla is also an exquisite piece of engineering and we're here to let it talk to you. We've decided to do this by bringing you a video that shows a 2012 GT-R that uses straight p... [...]
