Fresh off of their program for the Lamborghini Aventador, German tuning firm DMC is at it again, this time, with a new tuning package for the Lamborghini Gallardo LP560-4. Known as the "Toro" program, DMC fitted the Gallardo with a bevy of new modifications, including a lightweight styling kit and a performance upgrade. Talking about the former, DMC gave the Italian supercar new components that are all made out of carbon fiber. These components include a new front spoiler and sword, side sills and skirts, a new rear diffuser, a rear spoiler, a new rear panel, side mirrors, and rounded sills. Rounding out the exterior modifications are a new set of 20" lightweight forged rims.[...]
