Wheelsandmore has decided to offer us a new piece of German tuning for an Italian piece of metal, with the company targeting the Alfa Romeo 8C Competizione and offering performance, as well as visual goodies for the car. The Wheelsandmore Alfa Romeo 8C Competizione offers two power stages: the first uses an ECU remap to squeeze an extra 20 hp out of the V8 engine, which now delivers 470 hp and a peak torque of 500 Nm (lb-ft), while the se...
