

## Superchips Tunes Ford 1.6L EcoBoost Engine

18/05/2012 14:32 by admin

British plug-in ECU specialists Superchips have created a brand new power kit for the 1.6-liter EcoBoost turbocharged engine that Ford sells in a number of cars - the Focus, Galaxy, C-Max, Grand C-Max, Mondeo and S-Max. The kit brings a total of three levels of tune, so there's something for everybody from the avid speed freak to the person wanting a bit of extra grunt - 150PS (148bhp,) 160PS (158 bhp) and 182PS (178bhp). [...]
