The owner of the W211 Mercedes E-Class (this is the previous generation of the car) in the adjacent photos had gifted his ride with a number of visual tweaks coming from Wald , but decided that these had to be swapped for AMG mods, albeit adapted with other aftermarket goodies. The first two photos in the image gallery below show the car wearing the Wald stuff, while the rest allow us to see its new face. To be more precise, the car has r... [...]
