

ADV.1 Launches New Wheels: S|Function [Photo Gallery]

18/05/2012 19:35 by admin

Advance One Wheels recently released a new line of wheels, with this using the "S|Function" designation and being an evolution of a previous model. The company chose a Mercedes S-Class to showcase its new wheels and you can check it all out in the gallery bellow. The new rims are based on the Trak Function line, but instead of coming with a step lip, they use a flat one, with the sized ranging between 17 and 24 inches.... [...]
