

Mercedes G-Class Goldstorm Wide Body Kit by German Special Customs

21/05/2012 15:34 by admin

German Special Customs is an aftermarket developer that likes to play with some of the most exclusive vehicles in the world, focusing on the visual part of the deal and being a big fan of special materials. The tuner recently created an exterior package for the Mercedes G-Class, with this using carbon elements, such as the front bumper, rear bumper, hood, as well as the front grille, which also uses a gold foil for the finish....
