

Mercedes-Benz CLS Rides on Modulare Wheels [Photo Gallery]

25/05/2012 18:36 by admin

The Mercedes-Benz CLS is the car that took the four-door coupe segment and tuned it from a niche to a mainstream category. Now, with the second generation, it has become much more impressive in terms of details, not just silhouette and thus it is the perfect car to be used as a wheel display. Aftermarket developers are all too aware of this and thus more and more of them gift the car with their goodies. The latest tuner to play with the C... [...]
