

## HRE Wheels Introduces Copper Finish: New Penny

31/05/2012 18:06 by admin

HRE Wheels wanted to introduced a different finish that would make a car stand out, with crazy colors and matte black already being filed under &ldquo;the usual&rdquo; in tuning communities. Thus, the aftermarket developer came up with the New Penny look, which brings a brushed finish with a copper tone. The company chose an Audi S4 Avant as a display, with the vehicle being fitted with a set of HRE P44SC rims. [...]
