

speedART Unveils Tuned Porsche Boxster SP81-R

01/06/2012 14:12 by admin

The Porsche Boxster is the car that saved Stuttgart from the brink when it was launched. Yet they have moved further than ever before with from the affordable and simple sportscar that it once was. Th 2012 model is lower, wider and much longer, and the Boxster S will reach 100 km/h in just 5 seconds despite only having just over 300 horsepower. Now, it's time to see what the tuners can do once they had a go at the new Boxster. s... [...]
