

Carlsson C25 China Limited Edition

02/06/2012 05:19 by admin

Of course most of you remember the Super GT Carlsson C25 Royale unveiled last year at the Geneva Motor Show. At the launch Carlsson announced that only 25 units will be built. And now the tuner announced that from the 25 units, 7 will be built exclusive for the Chinese market and will be sold as the Carlsson C25 China Limited Edition. All units will be built individually according to the owners' wishes. The new C25 China Edition has been built entirely in carbon fiber so that the car is now 396 lbs lighter than the standard C25. Next to this impressive weight reduction the car gets composite braking system, a C-Tronic Suspension chassis with iPhone control, 450 HP V8 engine and a very impressive exhaust system with two massive, all-aluminum tailpipes.[...]
